CREATE YOUR STYLE with SWAROVSKI ELEMENTS Design Project
Box Little Secret

- Step 1: Fold the 16x16 cm cardboard in half as shown in the illustration. Unfold and fold the cardboard in the other direction as shown. Unfold this as well.
- Step 2: Turn it upside down.
- Step 3: Fold side A up as shown and repeat the step for sides B, C, D. The cardboard should look similar to the final image in the illustration.
- Step 4: Fold side A up to the crease marks made from step 1. Repeat the same process for all sides. See illustration.
- Step 5: Fold the cardboard on the crease lines as show in the illustration and mark points and make holes with the puncher.
- Step 6: Slide the silk paper in underneath the paper as shown in the illustration.
- Step 7: Fold the extra amount of silk paper over on all sides as shown.
- Step 8: Use a needle to make holes in the silk paper by pushing the needle through the holes on the cardboard. Repeat this for all the sides.
- Step 9: Form a pyramid as shown in the illustration.
- Step 10: Apply Swarovski Crystal-its as shown in the illustration with tweezers.
- Step 11: Cut two 60 cm threads and string on a Swarovski Bead article 5000 4 mm Siam and article 5040 8 mm Golden Shadow. Pull the thread back through the Swarovski Bead article 5040 as shown.
- Step 12: Make a knot with the short end and pull in Swarovski Beads on the longer end as shown in the illustration. Repeat the knotting process after each set of Swarovski Beads.
- Step 13: Cut the short end off.
- Step 14: Slide on one Swarovski Bead article 5000 4 mm Siam, one article 5040 8 mm Palace Green Opal, one article 5040 6 mm Siam, one article 5040 6 mm Crystal Golden Shadow, one article 5040 6 mm Siam, one article 5040 6 mm Crystal Golden Shadow and finally one article 5040 8 mm Siam on the longer thread.
- Step 15: As shown in the illustration A, pull the thread through the hole in the middle and then through the one on the side. Then go to the next side, side D, of the star and pull the thread first through the hole on the side and then through the hole in the middle, but only after inserting the Swarovski – *Swarovski Elements* as shown in the illustration. Then pull the thread back through the middle hole and then through the hole on the other side. The length of the thread between the two edges as seen in the illustration should be around 10 cm.
- Step 16: Moving through to side C, enter through the hole on the side and exit out from the middle hole. Add the beads and go back though the first six beads. Make a knot and cut off the leftover thread.
- Step 17: Repeat steps 11 – 13. Thread this through Swarovski Bead article 5040 Palace Green Opal and the rest of the Swarovski Beads as shown in the illustration. From behind go through the hole in middle and then through the hole on the side.

- Step 18: Go through to side B, enter through the hole from left side and exit out through the hole in middle. Insert the rest of the Swarovski Beads and go back through them as shown. Come back through the hole in middle and exit out through the hole at the right side.
- Step 19: Moving towards side C, enter in through the hole from above, exit out of the hole from the middle and as shown in the illustration enter through the top Swarovski Bead. Pass through all 6 Swarovski Beads before the knot and go back through the rest of the Beads and comeback through all of them except for the one from where you entered. Tie a knot and cut of the thread.
