Finally nature silently fell asleep under a coat of snow. Forms and sounds reduce to a soft scenario that is only highlighted when the rays of light turn into dancing reflections. A perfect time to get into the mood for Christmas. The Christmas tree pendants and tree balls by CREATE your STYLE™ with Swarovski® are inspired by this natural spectacle.

The contrast of soft and fake fur-flakes highlights the sharpness and ice-like twinkle of the crystals in the pendants. The balls made of paper strips filled with feathers are depicting the fascination of genuine snow. Snow queens complete their personal winter wardrobe with socks that keep the feet warm promising a brilliant walk or drive on the sledge.
