ROUGH AND FRAGILE STRANDED FLOTSAM OCEANIC

While strolling along a bay, you become aware of the deep mysteries the ocean hides. One minute it seems to sleep peacefully, while in the next it surprises with roughness and a wild temperament. This fascinating contrast has become an inspiration for CREATE your STYLE™ with Swarovski®.

The moment when the organic mingles with the non-organic is the beginning of a story never told before. It creates a symbiosis of mutual inspiration. Clusters of crystal simulate the poetry of nature. Like in a bracelet where artificially beaded starfish and “real” sea glass – overgrown with crystals instead of mussels – interweave.
